SATURDAY JANUARY 18

The man behind the gun needs a cool head as well as a sharp eye.

We quite agree with the Star that all the burglaries and hold-ups so far authenticated may have been done by one man.

There is a reign of crime in Denver, and a vigilance committee has been formed. The same recourse is being talked of, prematurely, in Honolulu.

Today, citizens are again buying firearms to defend themselves from one of the results of annexation—Independence. They often had to do it, if we remember aright, to defend themselves from the results of monarchy.

It will be interesting to see whether General Barnes of San Francisco gets the Japanese mission if for nothing more than to determine whether a man who serves his party for thirty years on the stump is entitled to any reward.

That the \$40,000,000 offer of the Panama canal wreckage is part of the railroad game admits of little doubt. Ever since 1896 the opposition has played up the Panama scheme and managed, by that course, to sidetrack the Nicaragua project. Whether the thing can be done this time remains to be discovered.

The Empress Dowager, on her return to Peking, bowed to the foreigners who watched the advent of the court. This was a revolutionary concession, but it served to show that China's ruling clan has learned the lesson of the past year and that the day of modern reform in the government of the old Mongol empire is not distant.

FUTURE OF THE
UNITED STATES

Millionaire Schwab Gives a French Paper Some Startling Facts.

PARIS, January 8.—Le Journal prints a long interview this morning with Charles M. Schwab, President of the United States Steel Corporation, who defends trusts as a necessary outcome of an advanced state of civilization. Mr. Schwab says that the countries where trusts do not exist are destined to abandon the struggle for commercial supremacy. He says that the trusts have nothing to fear from socialism, and that the American workmen are better paid and happier under the trust system. When people earn good wages, he says, their rights do not trouble them.

Mr. Schwab said further that the commercial power of the United States is unlimited and unimpaired; she will inundate France with her products and force the French industrial classes to abandon the struggle. America is only beginning. The Old World has no idea what the United States will become a quarter of a century hence. All here belongs to the middle ages.

Mr. Schwab approves of the French plan of industrial schools in the United States, but expresses his fears that the graduates of these schools, when they return to France, will be paralyzed by the old ideas prevalent here and will do little or nothing.

HAVEMEYER ON
SUGAR TARIFF

NEW YORK, Jan. 8.—At the annual meeting of the stockholders of the American Sugar Refining Company in Jersey City today, President Havemeyer presented his annual report. He said:

"It would seem that with an overflowing Federal treasury there had disappeared any reason for continuing the existing high tariff upon raw sugar. It constitutes a charge upon the consumption of nearly two cents a pound. This represents on an annual consumption of 2,360,000 tons \$55,000,000 a year. Of this, however, only 1,360,000 tons are imported, yielding customs revenues of \$59,000,000. The balance, \$36,000,000, goes into the pockets of the planters."

"Removal of this duty on raw sugar would result in a saving to the consumer of \$55,000,000."

BEET MEN MAKING
A LOSING STRUGGLE

WASHINGTON, Jan. 4.—Representatives of California and other beet sugar States, are worried over the overwhelming sentiment in the Senate in favor of Cuban tariff reduction. In addition to Senators Lodge, Aldrich and Hale, Senator Allison has been won over to the idea of tariff reduction. With the close friendship between Governor General Wood and the President, both bent upon the reduction of the tariff, and with Secretary Root in full sympathy with them, there is an element of strength in the movement that few Senators can withstand. New England seems to be solid for reduction, and now that Senator Allison has joined their forces, it is said that Speaker Henderson, who came from Iowa in a private car with Allison, and who is his close friend, will co-operate with the administration forces.

The Census Returns.

WASHINGTON, January 7.—The Census Bureau today issued a report saying that the population of the entire United States, including all outlying possessions, was 84,233,069 in the census year 1900. This is itemized as follows: Continental United States, or United States proper, 75,994,575; Philippines, 6,961,339; Porto Rico, 933,243; Hawaii, 154,901; Alaska, 63,322; Guam, 590; American Samoa, 610; persons in the military and naval service of the United States outside of the territory of the United States proper, 91,213. These figures are based on the enumeration of June 1, 1900. The report says that there are but three countries now having a larger population—China, first, the British Empire second, Russia, third, and France falls in directly behind America.

Smallpox at Randsburg.

BAKERSFIELD, Cal., Jan. 8.—The smallpox situation in Randsburg has become so alarming that the citizens' committee there which has the matter of the safety of the town in hand, has addressed a communication to the Board of Supervisors asking that a quarantine officer be sent from Bakersfield to take charge of affairs. There are now in Randsburg 46 cases, over 20 of which are in the pest house. It is now established that the cases in Stockton had their origin in Randsburg. A. W. McGinn, the teacher of the public school at Randsburg, went to Stockton for his holiday vacation and was taken down with the disease there. From this, it is stated, the other cases started.

The Philippine Situation

MANILA, January 5.—General Frank B. Bell is conducting a vigorous campaign in Batangas province. Every available soldier is in the field. The columns under the command of Colonels Wint and Dougherty are doing excellent work, and driving the Filipinos in all directions. A number of the latter are fleeing to Tayabas province, where the native constabulary are rendering valuable assistance in capturing men and rifles. General Bell's acts are disapproved by the peace advocates, which he repulses that they had plenty of opportunity to try peaceful methods, and were unsuccessful. Conditions in Samar are far from satisfactory.

The Anaconda mines at Butte, Mont., have started up again, litigation having been ended.

PROGRAM FOR
ALUMNI CONCERT

Many Selections to Be Given at the Opera House Tonight.

The Kamehameha Alumni Association concert in aid of the lepers at the settlement on Molekai and for an educational fund for Hawaiians, will take place this evening at the opera house. A program of fifteen selections has been arranged in which the amateur orchestra, Alumni Glee Club, choruses from the Kamehameha Girls school and the Boys' school, Kawaiahaeo glee club, Symphony Mandolin club, the Kamehameha choir and Miss Helen Desha will take part.

The program contains many Hawaiian airs, alternating with English selections. The young men of the Alumni Association expect a large audience. The price for seats has been placed within the reach of all, the lower part of the house selling for seventy-five cents a seat.

The program shows that a treat is in store for the non-paying public. The Kawaiahaeo club, composed of Messrs. James Shaw, John Edwards, Solomon Hiram and Ben Jones of the original Hawaiian Quintette Club, is to appear, and their first number is an original composition dedicated to the late Princess Kaiulani. The club is the leading Hawaiian quartette in the city and a splendid opportunity will be given at the concert tonight to hear the singers at their best. The final rehearsals of the choruses were had yesterday afternoon and evening at the opera house. The program is as follows:

- PART I.
- "Smugglers of Bayadex".....Minkowski
The Amateur Orchestra.
"Breeze of the Night".....Lamothe

Libertador Active.

WILLEMSTAD (Island of Curacao), January 6, via Haytian cable.—Shortly before midnight last night the Venezuelan revolutionary steamer Libertador passed several times before this port, signalling to people ashore. Answering signals were received from the shore. General Riera, the Venezuelan insurgent leader, and all the other insurgents who had assembled here, embarked on board the Libertador during the day and night and landed on Venezuelan soil this morning near Vealdeseoro with arms and ammunition. It is reported here this afternoon that the Libertador has captured the Venezuelan gunboat Zumbador. The gunboat Zumbador of the Venezuelan navy was originally a tug named the Agosto.

Defends the Navy.

WASHINGTON, Jan. 6.—Secretary Long has replied to the critics over the distribution of prize money to the navy. In a letter to Senator Nelson. He says that the division was made by the Court of Claims from which there had been no appeal. Says the Secretary: "As commander in chief Admiral Sampson would therefore under the law have been entitled to his share of the bounty for the destruction of the Spanish ships at Santiago if he had been on the north shore of Cuba at the time. This was the law, for which the Navy Department is in no wise responsible."

Chinese Exclusion.

WASHINGTON, January 4.—Representative Needham, who has been mixing among the Eastern representatives during the recess, says he finds a growing sentiment in favor of re-enacting the present Chinese exclusion law, rather than enacting an entirely new law.

Milliken Bros., of New York, who are erecting several buildings in Honolulu, have been awarded a \$200,000 contract for furnishing steel to the De Beers diamond mines in South Africa.

ALWAYS IN SIGHT

Crowded street. People passing by. Old and young. All eager about their own affairs and always somebody in plain sight who needs Scott's Emulsion.

Now it's that white-haired old man; weak digestion and cold body. He needs Scott's Emulsion to warm him, feed him, and strengthen his stomach.

See that pale girl? She has thin blood. Scott's Emulsion will bring new roses to her face. There goes a young man with narrow chest. Consumption is his trouble. Scott's Emulsion soothes ragged lungs and increases flesh and strength.

And here's a poor, sickly little child. Scott's Emulsion makes children grow—makes children happy.

Dyspepsia

What's the use of a good cook if there's a bad stomach—a stomach too weak properly to digest what is taken into it?

The owner of such a stomach experiences distress after eating, nausea between meals, and is troubled with belching and fits of nervous headache—he's dyspeptic and miserable.

"I have been troubled with dyspepsia and have suffered almost everything. I have tried many different remedies, but could get no relief until I began taking Hood's Sarsaparilla. After the use of this medicine I could eat without distress, and today I am as well as ever, but I always keep Hood's Sarsaparilla on hand." Mrs. J. A. CROWELL, Canajoharie, N. Y.
